

Master Class Brainspotting with David Grand

June 3, 4, 5 th, 2022 (24 hours)

By videoconference on line

- The Master Class is an opportunity for Brainspotting therapists to learn Brainspotting the way David Grand uses it in his office. The teaching opportunities are designed to make available the open, integrative, free-form approach for use with clients in all diagnostic categories, including Dissociative and Attachment Disorders.
- The format will include multiple demonstrations with attendees, role playing of working with challenging cases brought in by attendees and presentation of the newest Brainspotting innovations with lively and open Q and A.
- This 3 day Master Class provides the opportunity for expanded groups to study the most advanced, creative clinical applications of Brainspotting.
- Minimum requirement for attendance is Brainspotting Phase 1.

Given by David Grand, Ph.D.
